Colorado Chinese Medicine University Joins RAND REACH Center: A New Era for Research and Grant Development

By Joseph Brady, Chair Research Department CCMU

We are proud to announce that Colorado Chinese Medicine University (CCMU) has been accepted as a member institution of the prestigious RAND Research Across Complementary and Integrative Health (REACH) Center. This is a significant milestone for CCMU, as it further strengthens our commitment to advancing research, education, and collaboration in the field of Complementary and Integrative Health (CIH).

The RAND REACH Center is renowned for its role in supporting research excellence across the CIH landscape. By joining this esteemed institution, CCMU faculty and staff will gain access to a wide range of invaluable resources designed to help us build a stronger research foundation. A key focus of our membership will be on improving our ability to develop competitive research grants. The REACH Center's virtual research platform provides the tools needed to turn innovative ideas into well-structured, fundable research projects, paving the way for our researchers to submit successful grant proposals.

Acupuncture in Sports

In the fast-paced world of sports, where athletes push their bodies to the limit, quick recovery and peak performance are essential. Acupuncture, a therapy known for reducing pain and helping the body heal, has become popular among top athletes. From basketball to tennis, acupuncture is helping athletes perform better and recover faster. Here's how some of the biggest names in sports are using acupuncture to stay at the top of their game.

Stephen Curry: Staying Sharp on the Court

Stephen Curry, famous for his incredible shooting in basketball, uses acupuncture to help his body recover from the stress of his intense training and games. He says, "Acupuncture helps me manage the wear and tear on my body." It's a key part of his recovery, along with other treatments like ice therapy and massage, helping him stay flexible and ready to perform.
