

Acupuncture employee position

Licensed Acupuncturist – Integrative & Patient-Centered Care

Location: Northern Colorado

Job Type: Part-Time to start. Must be willing to work Sundays, wednesday and/or thursday evening in addition to any other chosen days/times preferred.

Compensation: Based on experience. Base pay with % commission

Benefits: Flexible scheduling, CEU support, paid time off, employee wellness benefits, mentorship opportunities, and collaborative clinical environment

About Us

We are a busy acupuncture clinic focused on providing compassionate, evidence-informed care that addresses the whole person. While we are primary care, our focus leans towards gut health, pain management and womens health. Our team values collaboration, professionalism, clinical excellence, and meaningful patient relationships. We blend Traditional Chinese Medicine with modern functional and integrative approaches to support long-term healing and wellness.

Our clinic utilizes 3 treatment rooms, seeing 2-3 patients at a time. Comfort seeing patients for a 4-6 hour stretch would be expected. Being willing to follow existing treatment protocols at times also expected for cohesive patient care.

We are seeking a motivated, patient-centered Licensed Acupuncturist who is passionate about helping people improve quality of life through acupuncture and holistic medicine.

More information available about position details.

To Apply

Please submit:

- Resume/CV
- Brief cover letter introducing your clinical interests and treatment philosophy

We look forward to connecting with practitioners who are passionate about helping patients heal and thrive.

Position Overview

The Acupuncturist will evaluate patients, develop individualized treatment plans, and provide high-quality acupuncture care in a collaborative clinical setting. The ideal candidate is confident clinically, communicates well with patients, and enjoys working as part of an interdisciplinary wellness team.

Responsibilities

- Perform comprehensive patient evaluations and intake assessments
- Develop individualized acupuncture treatment plans based on patient history and presentation
- Provide acupuncture treatments using safe and sterile techniques
- Incorporate adjunctive therapies when appropriate, including cupping, gua sha, moxibustion, electroacupuncture, and lifestyle education
- Educate patients on wellness strategies including nutrition, stress management, sleep, and movement
- Maintain accurate and timely patient documentation
- Collaborate with providers and support staff to ensure excellent patient care
- Build strong patient relationships and support retention through outstanding clinical outcomes and communication
- Stay current with continuing education and emerging research in acupuncture and integrative medicine

Qualifications

- Active Colorado acupuncture license (required)
- NCCAOM certification preferred
- Current malpractice insurance or willingness to obtain
- Strong communication and interpersonal skills
- Ability to work independently while contributing positively to team culture
- Experience in orthopedics, pain management, women's health, fertility, sports medicine, or functional medicine is a plus
- New graduates with strong clinical skills and eagerness to learn are encouraged to apply

What We Offer

- Established patient flow and administrative support
- Flexible scheduling with work-life balance
- Collaborative and supportive team culture
- Opportunities for mentorship and professional growth
- Modern clinic environment with fully equipped treatment rooms

- Competitive compensation structure with growth potential
- Marketing and patient acquisition support

Ideal Candidate Traits

- Compassionate and emotionally intelligent
- Professional and dependable
- Passionate about holistic and integrative care
- Motivated to grow both clinically and professionally
- Comfortable educating patients and building long-term therapeutic relationships

To Apply

Please submit:

- Resume/CV
- Brief cover letter introducing your clinical interests and treatment philosophy
- Any specialties, certifications, or additional modalities offered

We look forward to connecting with practitioners who are passionate about helping patients heal and thrive.
